## HANGED ON SCAFFOLD

J. Samuel McCue Pays the Penalty For Wife Murder.

## LEAVES A CONFESSION

He Alone Was Responsible For the Deed, "Impelled to It by an Evil Power Beyond His Control," Says Departed.

Charlottesville, Va., Feb. 10.—J. Samuel McCue, a former mayor of this city, was hanged at 7:36 Friday morning for the murder of his wife. He committed the deed Sunday, Sept. 4, 1904. McCue made a confession. He was pronounced dead eight minutes after the trap had been sprung.

Immediately after the execution McCue's three spiritual advisers gave out the following signed statement: "J. Samuel McCue stated this morning in our presence and requested us to make it public that he did not wish to leave this world with the suspicion resting on any human being other than himself. That he alone is responsible for the deed, impelled to it by an evil power beyond his control, and he recognized the sentence as just."

The case of McCue has attracted great attention all over Virginia owing to the character of the crime and the prominence of the man who has just paid the forfeit on the scaffold. The case was carried to the United States supreme court on a writ of error. This was denied Thursday by Justice Harlan. As a last resort the twelve-year-old daughter pleaded with the governor to save her father's life, and the executive had the trying duty of denying the child's request.

J. Samuel McCue was forty-six years of age and twice had been mayor of Charlottesville. On Sunday night, Sept. 4, 1904, McCue accompanied his wife to church. They returned home about 9:15 o'clock. Within fifteen minutes after they retired to their room the city was aroused by messages announcing the murder of Mrs. McCue, and friends, physicians and officers hurried to the McCue home. Mrs. McCue was found dead in the bath room and McCue was lying on the floor with an abrasion on his cheek and feigning unconsciousness. He later asserted an attack had been made by an unknown white man, who had climbed through a window. Mrs. McCue had been dealt a blow that broke her nose and her left breast had been almost severed by a second blow. Her death was caused by a gunshot wound just above the heart. McCue was never able to explain the presence in the bath room of a small piece of cotton undershirt which fitted exactly to a torn place in his shirt which he had on when officers arrived. Two women figured in the reports that were circulated as to the cause of the murder, and a letter filled with endearing terms sent him by one of his women clients was produced at the trial. McCue had quarreled with his wife a number of times. She was forty years of age and the mother of four children. The coroner's jury held McCue for murder three days after it occurred, and he had since been confined in jail, vehemently protesting his innocence. His trial was concluded Nov. 5 and he was convicted, the jury being out only twenty-six minutes.

### SHAFFER SWINGS.

Put to Death For Cutting Throat of His Divorced Wife.

Washington, Feb. 10.—Augustus L. Shaffer was hanged in the United States jail Friday for the murder of his wife.

The crime which Shaffer expiated was killing his divorced wife, Katherine Ivey, daughter of a bookkeeper in a local bank, by cutting her throat with a razor on the night of Aug. 22, 1903. The murder was premeditated and unaggravated save by jealousy. The woman obtained a divorce from him three years before. Shaffer was thirty-nine years old and employed in the government printing office. Despite the separation and her living at her father's home with their two children, Shaffer was insanely jealous of her. He met her on the street early in the evening of the murder and when he had spoken a few words exclaimed: "Kate, it's my time and my chance now," and grasping her by the neck cut her throat with a razor, severing the jugular vein and carotid artery. She died almost instantly. The tragedy was witnessed by several persons and his arrest followed immediately. His explanation was: "She has done me dirt," and "I ought to have done it years ago." A number of appeals for commutation of the sentence had been made to the president.

### TO SEE PRESIDENT.

Chairman McLaurin Will Go to Washington in a Few Days.

New Orleans, Feb. 10.—Chairman John L. McLaurin of South Carolina of the committee appointed by the Southern Interstate Cotton convention recently held here and of which Hon. John M. Parker of this city and Brister Ashcroft of Alabama are members to wait on the president and ask him to form a commission to introduce American cotton into the orient and other undeveloped markets will visit Mr. Roosevelt on the 20th inst. Senator McLaurin calculates that if China can be induced to use American cotton it is not unreasonable to believe that 25,000,000 bales of the American crop will be consumed after five years.

## SEVENTEEN OPPOSED.

Esch-Townsend Bill Passes House by a Large Majority.

## PRAISES PRESIDENT.

Pierce of Tennessee Says Chief Executive Is Greatest Leader on Railroad Rates of His Party Since Civil War.

Washington, Feb. 10.—After nearly four days of discussion the house Thursday, by a vote of 326 to 17, passed the Esch-Townsend bill providing for the regulation of freight rates. The negative vote was made up of eleven Republicans and six Democrats. The closing hours of the debate were occupied by Messrs. Williams of Mississippi the minority leader, and Hepburn of Iowa, chairman of the committee which reported the bill.

Less than twenty-five members were in their seats when the debate was opened by Mr. Pierce of Tennessee who, after announcing that the president on the subject of railroad rate legisla-

tion was the greatest leader that has lived in the Republican ranks since the Civil war, said he would support the Esch-Townsend bill. He, however, based his support upon the fact that William J. Bryan and the Democratic party had declared for just such legislation.

Mr. DeArmond of Missouri, while admitting the necessity for legislation, attacked the Esch-Townsend bill as being an inadequate treatment of the question. The bill, he said, did not reach private car lines, and it was not to be supposed that the courts would be eager and searching in the endeavor to find in it something on that subject which its authors themselves could not find.

The statehood bill came over from the senate and was laid on the speaker's table for reference in committee.

The closing remarks for the minority were made by Mr. Williams of Mississippi who, at the outset, congratulated the house upon the fact that not only in the matter of rate legislation, but in several other particulars, President Roosevelt, nominated by the Republican party and elected by the people was beginning to assume a distinctly Democratic attitude. He said he had begun to hope that the president would recommend a revision of the tariff, and that the president would see that it was altogether absurd to keep 20,000 more soldiers than were needed.

Addressing himself to the Republicans, Mr. Williams said they needed nothing more than the marking out of the pathway to follow the president, not because he was president or a Republican, but because he was outlining the proper policy for the American people. "Oh," he said, amid Democratic laughter, "I know how non-partisan you are."

Mr. Williams said it might be true in some things, as Mr. Grosvenor stated, that the Democrats "camped to-night where he camped last night," but he loudly proclaimed, facing the Republican side, that on this question "it is you who are camping this year where the Democracy camped last year."

Mr. Hepburn of Iowa, chairman of the committee on interstate and foreign commerce, closed for the Republicans. He explained the difficulties of preparing such a measure as the bill reported, saying no two men entertained the same opinion either as to what was in the bill or what ought to be in it.

Mr. Hepburn digressed for a moment and received sympathetic applause from both Democrats and Republicans when he asked to be excused for intruding on a matter of personal interest into the proceedings, which was the first time he had done so in eighteen years' service.

"If I have been criticised," he said with emotion, "I have borne it. If I have been slandered and lied about, I have submitted to it, content that my deeds, my acts, might be placed in opposition to and in answer to the libels of those who traduce me."

The bill, said Mr. Hepburn, he regarded but a rough draft after conference with the president and members of his cabinet. He denied that the Townsend bill was an administration

measure, nor was any bill he knew of an administration bill. He was loudly applauded as he took his seat.

The substitute bill of the minority was then defeated, 151 to 186. Mr. Gaines of Tennessee, Rider and Scudder of New York and Livernash and Wynn of California voting with the Republicans.

The roll then was called on the Esch-Townsend bill, which was passed, 326 to 17.

The new French ministry has drafted a bill for the separation of church and state.

Albert T. Patrick wants a new trial on the ground that the evidence on which he was convicted of the Rice murder was worthless.

There is said to be a scheme on foot for merging all the southeast Texas rice canal plants. The rice industry, which has been at a low ebb for some time, shows signs of better times ahead.

The senate's anti-free pass bill proposes to prevent the railroads from even making contracts with the newspapers for advertising payable in mileage. This should be labeled an anti-free contract bill.

The house will add some even more radical features to the senate's anti-free pass bill and send it back to the upper house. By this means the death of the anti-free pass legislation will be doubly assured.

The development of the Humble oil field is a plain forerunner of the future development of the Lamb Springs field near Bryan. The two propositions are very similar, with the advantage in the way of indications largely in favor of Lamb Springs as compared with Humble before the latter was bored into.

Dr. D. F. Houston is said to have given a favorable expression regarding the bill to create a state agricultural department. This is contrary to the Austin news item of a few days since, wherein the statement was made that the influence of the A. & M. College was against this bill. Dr. Houston told the reporter that he is in favor of an agricultural department.

## "FOUND"

Odd Notice in Prominent Southern Paper of Interest to Bryan Residents.

One of the best known newspapers in the South is the "Guide," of Dunn, N. C. Its publisher, J. P. Pitman, sends us the following clipping with request to publish:

"Found—by the editor of the Guide, a bottle of Hyomei, the wonderful treatment that cures catarrh without stomach dosing. We can speak in highest praise of its remarkable power to cure and relieve catarrh of the head and throat. This mention is made not as an advertisement, but in the interest of those who suffer the torture of that terrible disease, catarrh."

In sending the clipping, Mr. Pitman wrote the following letter:

"I enclose a little piece from my paper, issued today. You will see from this that I desire to push the selling of Hyomei as far as possible. I am using it in my own family, and find that it gives the desired relief, so that I take pleasure in spreading far and near the knowledge of this sure relief for catarrh."

E. J. Jenkins, in preparation for the catarrhal troubles of this season of the year, has ordered a large stock of Hyomei, and sells it under guarantee to refund the money if it does not relieve. The complete outfit costs but \$1, and extra bottles can be obtained for 50 cents. Ask him to show you the strong guarantee under which he sells it. This remarkable remedy medicates the air you breathe, soothing and healing the mucous membrane of the air passages, and making a complete cure of the worst case of catarrh. (2)

### BEATY'S BILL.

Measure to Sell Part of Texas and New Orleans Railway Discussed.

Austin, Feb. 10.—Bill of Senator Beaty authorizing Texas and New Orleans railway to sell that part of its line between Dallas and Sabine Pass was discussed in the senate Thursday, finally going over until Tuesday next, pending return of Senator Davidson.

Senator Looney offered a lengthy amendment, providing that no railway or other corporation owning a parallel or competing line of railroad shall purchase that part of the road authorized to be sold and that the railroad commission is authorized and instructed to fully investigate the sale; that it shall be supplied with copies of all papers in the case, list of stockholders, etc., to ascertain whether or not such sale is in good faith a transfer of the property; that if the commission is not satisfied with the sale and decides that it has not been made in accordance with the provisions of this act, it shall file its conclusion of disapproval with the secretary of state and the sale will be void. It was adopted.

Senator Hawkins offered an amendment, striking out the committee amendment, which was written by Senator Davidson, requiring the roads to provide free transportation for state officials, members of the legislature and sheriffs. A motion to recommit failed.

The senate passed finally the bill by Senators Griggs, Martin, Paulus and Decker, permitting the opening of road to maintain thoroughfares where a landowner is inclosed by other property holders.

Senate also passed finally Hawkins' state and county depository bill and Smith's bill requiring railroads to maintain water closets at passenger stations. Senator Hale's bill permitting persons convicted of felony and given sentence of five years or less to make recognizance or bail pending appeal.

The following senate bills were passed finally by the house: Mr. Hill's bill prohibiting roping contests, with amendment by Messrs. Hudspeth, Gray and Johnson to prohibit entering the inclosed lands of another and roping stock therein; Mr. Hill's bill increasing to \$75 monthly the pay of stenographers in civil courts of appeals; Mr. Hawkins' bill extending for two years the time allowed for the construction of the Orient railroad; Mr. Smith's bill providing for temporary guardians of minors and their estates.

### BAILEY DISAPPROVES.

Senator Opposes Federal Improvement and Supervision of County Roads.

Dallas, Feb. 10.—At a meeting of the directors of the Commercial club a letter was read from United States Senator Bailey in which he expressed his disapproval of the Federal supervision and improvement of county roads. "I have absolutely no sympathy with any movement which looks to Federal supervision and improvement of our county roads," says Mr. Bailey. "I am one of those who believe that purely local matters should be left entirely to local control and will not vote to submit our roads to the Federal government in order to obtain Federal appropriations."

In many Texas towns during the last few days, conventions have been held in endorsing the plan of Federal aid in road-building.

## "Down by the Rio Grande"

The Annual Event of Two Nations:

Yaqui-George Washington The "Laredos."

Some years since the citizens of Laredo, Texas, and Nuevo Laredo, Mexico, conceived the idea of fittingly celebrating George Washington's Birthday (February 22) by suitable "Mexican-American" fiestas and parades, and from a small source this has grown to a MAGNIFICENT ANNUAL EVENT, unsurpassed in its splendid surroundings and interesting particulars by anything of a similar nature.

International in its character, located on the border line between the Great Republics, occurring at a season of the year when business cares press lightly, and at a time when weather conditions in that locality are ideal, this event offers unsurpassed inducements to the pleasure seeker.

This year the festivities will consist of four days' continuous festivities, February 21st, 22nd, 23rd and 24th, and the program, which is very elaborate, will comprise many new and interesting features, among which may be mentioned FAMOUS SPANISH BULL FIGHTS, GRAND CATTLE ROPING CONTEST, FOOT BALL, BASE BALL, COCKING MAIN, torchlight parades, embodying typical Mexican and Indian features, Naval fire works on Rio Grande River, a spectacular reproduction of Gen. Washington crossing the Delaware. Military drills and display evolutions. Historical Pageants and Trades-Display, Flower Carnival, U. S. and Mexican Troops and Bands.

For this occasion low excursion rates will be in effect to Laredo, also for the benefit of those who desire to see more of Mexican life and customs, arrangements have been made for the sale of excursion tickets to MONTEREY, MEXICO, with ten (10) days' limit, permitting stop over at LAREDO in order to witness the International Celebration.

### DAUGHTER APPEALS.

McCue's Little Girl Asks Governor to Spare Her Father's Life.

Richmond, Va., Feb. 10.—Samuel McCue's twelve year old daughter, Ruby, came to the city Thursday, accompanied by her uncle, Edward C. McCue, and her aunt, Mrs. Rhodes, and made an appeal to the governor for her father's life. The governor was much affected by the child's appeal and told the little girl that he would consider the matter. He also said to Mr. McCue, who is a lawyer and one of the prisoner's counsel, that he (McCue) would understand his attitude toward the judiciary of the state.

A special from Charlottesville said that the execution would take place at 7 o'clock Friday morning.

McCue Thursday evening said farewell to his children and relatives. Breathing an atmosphere of intense religious fervor he professed to see nothing in his approaching end but a grateful release. He was convicted for murdering his wife.

Writ Denied.

Washington, Feb. 10.—Justice Harlan denied a application for the writ of error in the McCue case.

### ATLANTA ISOLATED.

Georgia Metropolis Cut Off From the Rest of the World.

Montgomery, Ala., Feb. 10.—A special messenger from Atlanta brings the following from that city:

Atlanta is cut off from the rest of the world by wire communication as completely as if no wires had been strung. In Atlanta at the present writing, noon Thursday, the city is isolated both telegraph companies being without a wire to points beyond the limits of their operating rooms. The Western Union company reports 3000 telegraph poles down within this jurisdiction. The Postal company reports similar damage and its officials here confirm the report that Atlanta seems to have been the center of the storm troubles. The situation is about the worst in the memory of the oldest inhabitant. Besides the damage to wires in the city the loss to shade trees has been enormous. The ice-laden branches have bent and broken in every part of the city, delaying and shutting off completely all street car traffic and telephone communication. Six thousand telephones are reported out of use, and perhaps weeks must elapse before normal conditions can be resumed. Supplies of staples are normal.

### SCOUTS HAVE FIGHT.

One of Their Number Was Killed and Five Others Wounded.

Washington, Feb. 10.—The following cablegram has been received at the war department from General Corbin at Manila: "Brigadier General W. H. Carter reports engagement of scout with Puljanese at San Jose, Samar, Feb. 2. Six guns were captured. No casualties. Feb. 3, Gustin, second lieutenant of Philippines scouts, was wounded moderately, one scout was killed and five wounded. One thousand Puljanese were located at Mount Tago, due east of Calbayog. Our forces are co-operating with native troops with good effect."

The minister said during negotiations it had been decided to give the Russian military contracts to German firms.

### DUKE'S COMPETENCY.

Whether He Can Manage Himself and Property To Be Decided.

New York, Feb. 10.—The question of whether Brodie L. Duke, of Durham, N. C., is competent to manage himself and his property was submitted to a jury by a decision of Justice Leventritt in the supreme court. ### RIVER RISES RAPIDLY.

Colorado Has Reached Its Highest For Several Years.

Los Angeles, Cal., Feb. 10.—A special from Yuma, Ariz., says: The Colorado river has risen three and one-half feet in twenty-four hours. At midnight Thursday night it registered twenty-nine feet, which is the highest water since the 1891 flood, when it was thirty-three feet and the town was wiped out. Citizens with shovels and scraper teams have labored strengthening weak points. The government levee on the Gila side is generally conceded to be safe, but the embankments on the Colorado river are causing grave apprehension, as several breaks have occurred there, one near the territorial prison and another close to the Yuma Water and Light company's power house.
